

## Public Health Disinfection

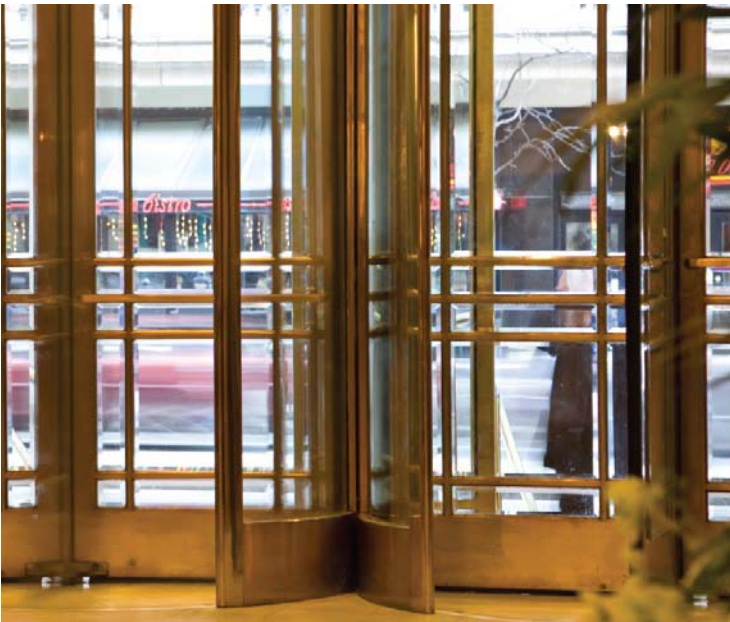

# PROTECTING YOUR REPUTATION.

Protecting your employees and guests from illness is important in maintaining a healthy, productive operation.

Be proactive and help prevent the spread of illness with vigilant hard surface disinfection:

- ▲ Choose DIN-registered products that are virucidal
- ▲ Disinfect hard surface areas frequently, including the following:
  - Furniture
  - Door handles/push plates/railings
  - Restroom surfaces and locker rooms
  - Light switches/elevator buttons
  - Check-in counter
  - Fitness equipment
- ▲ Provide employees and guests with a safe, clean environment backed by the world-class products and expertise of Ecolab

Talk to your Ecolab Representative to learn how customized solutions can keep your operation safe and secure.

# HELP PREVENT THE SPREAD OF ILLNESS.

Ecolab offers a variety of proven disinfecting products effective against illness-causing viruses. Your Ecolab Representative can help select products and recommend procedures that are right for your operation.
